VOL. LXI: No. 6 — REDWOOD CITY, CALIFORNIA, SATURDAY, MAY 7, 1921 — ESTABLISHED 1859

CITY TRUSTEES HOLD SHORT SESSION

At the City Hall Monday evening there were some slight delay in getting started with the regular routine of business but once started the speed limit was maintained. The first meeting in the month is generally a long one due to the long grist of bills to be considered, but Monday evening the session was adjourned shortly after 10 o'clock.

City Clerk Wm. Price read a communication from the Pacific Gas and Electric Company asking for a permit to set two poles on Lincoln avenue and to make contact on two of the city's poles on Hancock street. Both permits were granted.

The following 1 o'clock dance permits were granted:

Court Madrone, F. of A., May 21.
The Aloha Club, May 21.
Jazz Club, May 14.
Peninsula Club, May 7.
Redwood Circle, No. 100, Druids, May 7.

The War Department addressed a communication to the board granting an extension of time until May 28, in the hearing of the matter of the proposed Redwood City harbor.

Plumbing Inspector Cox Drathman submitted his report for the month of April, the same being filed.

An ordinance pertaining to sewer connections was read and adopted. This ordinance is practically the same as the old one, with the addition of a penal clause.

Trustee Tuchsen, chairman of the street committee, reported that the committee was not ready to report on the resignation of Street Superintendent Ed. Dearborn and asked for an extension of time.

A delegation from Redwood City Post, No. 105, American Legion, was present and asked for a permit to hold a carnival in Redwood City in the near future. On motion the permit was granted and a license was issued without charge to the boys.

City Engineer C. L. Dimmitt submitted three bids which he had received for constructing sidewalks and curbs on Washington street between Jefferson avenue and Webster street. Charles Coffro was awarded the contract for $160.

The regular monthly reports of officers and the monthly claims were read and approved, and warrants were ordered drawn on the several funds for the payment of the claims.

The following report of the cost of constructing a municipal wharf and warehouse on Redwood Creek, was submitted by City Engineer C. L. Dimmitt, to be forwarded to the War Department, Washington, D. C.:

Board of Trustee, Town of Redwood City, Cal.—Gentlemen: In accordance with your recent instructions that the City Engineer provide an estimate of cost for the construction of a municipal wharf and warehouse at the foot of Steinberger street, making the same accessible by spur track and paved roadway, I herewith submit the following:

I understand that the purpose of this estimate is to furnish a comparison of costs to the municipality between the development of a harbor at the site of the already existing wharf and warehouse at the foot of Main street, and the proposed site at the foot of Steinberger street. I have intentionally omitted from this report any consideration of the dredging for channel and turning basin, or of the maintenance of either, and any argument as to merit and demerit of the respective locations, confining myself strictly to wharf construction and means of approach, which I believe is in conformity to the letter of your instructions.

In a previous report I have submitted an estimate for the construction of a spur track to the Main street wharf in the amount of $25,000, this including the allowance for some extension of the existing wharf. The warehouse as built is sufficient for present needs, the pavement already built to the foot of Main street and also along Bradford street is of reinforced concrete base with asphalt surface. The only construction required is that as outlined above and the total cost in the sum of $25,000. The width of the pavement on Main street leading to the wharf is forty-four feet, and on Bradford street fifty-six feet.

For the Steinberger street site, I have estimated the cost for the first unit of wharf and warehouse, equivalent to that already built at Main street, i nthe sum of $16,000.

The paved roadway will extend from the present pavement on Bradford street along Steinberger street. The foundation for the entire length of the road is unstable in character. A block sticky muck, of very low bearing capacity, and varying in depth from a minimum to about two feet near Bradford street to a maximum of about twelve feet near the water front, overlies a stratum of very firm hard clay mixed with gravel. I would recommend that the necessary fill be made of a hard, durable stone and have estimated the amount of rock required to bring the foundation to the proper grade, making a conservative allowance for subsidence, would ze 12,000 cubic yards and at a cost of $2.50 per cubic yard placed on the road. For final construction I would recommend that a reinforced concrete pavement, six inches in thickness and width of 30 feet, be adopted. There would be a total of 98,000 square feet at an estimated cost of thirty cents per square foot.

The spur track from the foot of Chestnut street to the wharf site would have a length of about 3000 feet, the distance from the foot of Chestnut street to the Main street wharf being approximately the same, but with the difference that the Main street line would traverse fairly stable ground while that to the Steinberger wharf would be of the same character as that described above for the roadway along Steinberger street. Allowing for subsidence, I have estimated the amount of rock fill required for the track at 11,000 cubic yards and at a cost of $2.00 per cubic yard.

The following is a summary for cost of construction of Steinberger wharf, providing equal facilities and accessibility to the Main street wharf.

Wharf and warehouse		$16,000
Paved oRadway—		
Rock fill	$30,000	
Pavement	29,400	
Culverts	1,600	$61,000
Spur Track—		
Rock fill	$22,000	
Track	12,000	
Culverts	2,000	$36,000
Total of		$113,000
For engineering, supervision, incidental		7,000
Total cost of		$120,000

In conclusion, I would call your attention again to the estimated amount of material for both roadway and spur track, and to the clause contained in this report "making due allowance for subsidence." The exact amount of this subsidence is not determinate and is a matter of judgment, making a good guess, in other words. I have had quite a bit of experience in building over unstable ground, and I firmly believe in my own mind that the estimate as submitted will prove fairly accurate, but this same experience prompts me to call your attention to the uncertainty.

In explanation of the expression, "for final construction a reinforced concrete pavement." If this work should be nudertaken, not less than two years should be allowed for the construction and completion of the rock fill, at the end of which time final settlement should have occurred and it would then be safe to proceed with the pavement construction. During this two years period the roadway could be maintained, of course as macadam.

The difference I have allowed on price of rock as between the roadway and spur track may be explained by stating that the material for the roadway must be handled by trucks, necessitating rehandling and hauling of material, while in the case of the spur track cars loaded at quarry could be shunted direct to spur and unloaded, the track being raised as filling progresses.

Respectfully submitted,
C. L. DIMMITT,
City Engineer

REPAIRS MADE ON LA HONDA ROAD

In a few days work of repairing three miles of the La Honda road will begin under the supervision of William Miller, the noted expert road builder, who recently returned from Arkansas, where he constructed hundreds of miles of highways for the state government. Most likely the La Honda thoroughfare will be closed during the progress of the work. Supervisor MacBain is to do the repairs himself, as the bids received some time ago were rejected as being too high.

The amount to be collected in the county is $3,500. About $500 of this sum will be allotted to Redwood City. It is the intention of those in charge of the drive to make the burden as light as possible by asking every individual to subscribe a small amount. Everyone should co-operate with the legion in making the affair a success.

BLACK BURGLAR GETS A SPEEDY CONVICTION

The shortest jury trial in the history of the superior court of this county took place yesterday, when Irwin Weeks, colored, charged with the crime of burglary committed in South San Francisco, was convicted in just 35 minutes after the case was called by Judge Buck. The jury was impaneled and evidence taken in 25 minutes and after brief instructions the jury retired and brought in a verdict of guilty in 10 minutes. The attorney for Weeks pleaded with him to offer a plea of guilty, but he would not listen, demanding a jury trial.

The evidence was overwhelming against Weeks. He will be sentenced Monday morning.

HOSPITAL DAY IS MAY 12 FOR THE AUXILIARY

At a recent meeting of the Women's Auxiliary to American Legion Post No. 105 it was decided to make May 12 hospital day and that is the day the penny drive for the base hospital will be opened. Mrs. F. L. Blomquist went before the board of education and the board gave its unanimous consent to the drive being made through the schools of San Mateo county for a penny from each child.

With the money given the auxiliary by the school children, subscriptions to various magazines will be presented to the boys at the base hospital in Menlo Park as the gifts of the boys and girls of the San Mateo county schools.

Private and public schools will later receive letters directed to the principals requesting them to urge the cause.

SERIOUS FIRE AT THE BASE HOSPITAL

At 5 o'clock on Thursday afternoon fire broke out at the base hospital at Menlo Park in wards S and T. The blaze started in ward S from a defective coal stove and spread to the adjoining ward with wonderful rapidity. Both wards were soon in flames.

At the time of the alarm the larger portion of the 60 patients were at dinner in a nearby mess hall. The few patients remaining in the ward were removed to places of safety. An alarm was rung in for the Menlo Park fire department and in a short time its apparatus was at work. The fire was too far advanced to save the buildings. Attention was diverted to adjoining structures. The Palo Alto fire department failed to put in an appearance, although called when the fire was discovered. Much adverse comment is being heard on all sides on account of the department's failure to show up.

The loss of the buildings is estimated at $15,000.

No doubt the conflagration will cause the government to hurry along the contemplated erection of permanent buildings that will be fireproof.

Major Wheate, the superintendent, in commenting on the fire, declared that for the past year he has been trying vainly to persuade the government to make an appropriation for the equipment of a good fire department, the present volunteer department being inadequat.

PERMANENGE OF BASE HOSPITAL IS ASSURED BY FREE

That the government has taken steps to purchase the property on which is located the hospital for service men at Menlo Park and that the hospital will be made modern in every respect for the treatment of mental cases was the substance of a letter to Manager Wyatt read at the meeting of the board of directors of the chamber of commerce of San Jose on Wednesday. This letter was in reply to a communication sent to Congressman Free by Mr. Wyatt ten days ago, requesting that he go to headquarters at Washington and learn just what the situation was, as it was evident that outside influences were at work endeavoring to procure the hospital for mental cases, for which a large appropriation already has been made for another section of the state. Mr. Free got his information direct from Dr. Hugh S. Cumming, surgeon general, and it therefore may be accepted as authentic.

SUPERVISORS WIN AT LEGISLATURE

Suprvisor John MacBain returned from Sacramento the early part of the week. With eighty other supervisors of the state he went there to help defeat th bill which, if it became a law, would permit 11-ton trucks to travel over the roads of the state. Had the bill passed and been put in operation there would not have been a good road in this county in six months. These heavy vehicles would tear up the highway beyond repair. A county ordinance now in force permits 7-ton trucks to be operated in the third township and even with this truck repairs have to be made constantly on the highways. The bill in question passed the assembly, but was defeated twice in the senate. Mr. MacBain remained over until Tuesday to be sure that the bill had received its propr knockout.

SENATOR SHORTRIDGE DELIVERS GREAT SPEECH

The Congressional Record of April 19 containing the great speech of Senator Samuel M. Shortridge on the ratification of the Colombi atreaty, has been received by the friends of the Senator in California. In his address the Senator touched upon the great problem confronting the state, the Japanese question, as follows:

I shall detain you but one moment longer, if you will indulge me. We on the Pacific coast have a great problem. Loving this Union and asking for the help and the assistance of the South and of the North and of the East, we are unalterably determined that California and the Pacific coast shall not become another Hawaii. We propose to preserve California for our type and standard of civilization. I have reasons to know that Colombia sympathizes with us in that problem.

But yesterday it was that Japan sought to have a naval base at Magdalena Bay. Why did she not acquire it? It was because of the resolution introduced, I think, by the scholarly Senator from Massachusetts (Mr. Lodge), which was an expansion of the Monroe doctrine. We said, in effect, that the establishment of a naval base by Japan or any foreign country at Magdalena Bay, so near to us as to perhaps imperil our future, would be regarded as an unfriendly act. That resolution is in the records of the Senate. It was a wise resolution. I desire to have friends in this great battle for my state and for my country. I know that Colombia will be our friend in that regard and that no naval base will be established on the west coast of Colombia by any hostile, or possible hostile, nation of the earth.

Mr. Shortridge closed with the following beautiful tribute to Theodore Roosevelt:

Those who have paid high tribute to Theodore Roosevelt have uttered my own thought, but in more beautiful eloquent words than I could hope to speak. Nothing that we can do this day, Mr. President, will disturb his rest; nothing will add to his name. 'Malice domestic, foreign levy, nothing can touch him further.' He wrought a great deed for America. He did what he thought was right. we approve what he did; we indorse all he did. We treasure the results of his work.

Nothing can cover his high fame but heaven;
No pyramids set off his memories,
But the eternal substance of his greatness;
To which I leave him.

SENATOR HIRAM JOHNSON MAKES AN ABLE ADDRESS

Senator Hiram Johnson in closing his splendid speech in opposition to ratifying the treaty with Colombia paid the following beautiful tribute to his departed friend, Theodore Roosevelt:

"Mr President, I do not base my opposition to this treaty upon that which so popularly is expressed in reference to Theodore Roosevelt. I yield to no man in the affection that I held for him while living; I yield to no man in reverence for Theodore Roosevelt dead. I follow Theodore Roosevelt in fair weather and in foul, I stood behind Theodore Roosevelt when he was Republican; I stood at his side when he was Progressive; and I am equally proud of both. I followed Theodore Roosevelt when it was popular to follow him; I stood with him when it was unpopular to be with him; I was always glad to follow him; but it is not alone concerning him or his memory that I speak today or upon which I base my opposition to this treaty. This treaty does more than do a wrong to him! it wrongs a great nation; it wrongs a great people. Down there at the Panama Canal is a world monument to the greatest man of this generation and to Ameircan genius. American enterprise, and American statesmanship. Down there on that great monument there is no stain, there is no sully of any sort that has come from its construction or during the years the United States has had jurisdiction over it. For one, Mr. President, I decline to write upon that great monument the dishoron of my country and the infamy of my people."

GOOD MEASURE PASSED

The bill passed by the recent legislature combining the various commissions under certain departments and now up to the governor for his signature is commendable in many ways, although the saving will not be very material. It was an administration measure. Governor Stephens sponsored it and had it adopted by both houses.

Of the few commissions that escaped the shears of the framer of the bill was the State Building and Loan Commission. George S. Walker of San Jose is the head of this and is well-known throughout the state as an able and honest commissioner who does his duty at all times without fear or favor to anyone. The state has in Mr. Walker a splendid official who is popular with the masses and who is honest and efficient in the performance of his duties. His friends are rejoicing that his commission survived the debacle.

TAXATION IN THE REPUBLICAN PLATFORM

A prominent democratic organ remarks with an attempt at facetiousness that the republican national administration will talk about reducing taxes but will accomplish nothing soon in that direction. That paper also intimates that the republicans promised reduction of taxes. As a matter of fact, neither party pledged tax reductions. In the republican platform adopted at Chicago the section relating to taxation began as follows:

"The burden of taxation imposed upon the American people is staggering; but in presenting a true statement of the situation we must face the fact that, while the character of the taxes can and should be changed, an early reduction of the amount of revenue to be raised is not to be expected. The next republican administration will inherit from its democratic predecessor a floating indebtedness of over three billion dollars, the prompt liquidation of which is demanded by sound financial considerations."

The platform also set forth that in addition to the floating indebtedness of three billions, there is an early maturing bond indebtedness of five billions. As everybody knows the actual interest burden at the present time is practically equal to the entire government expenditures for all purposes prior to the war. The republican party dealt frankly and honestly with the voters of the country by expressly asserting that there is no hope of early reduction of taxes. The democratic platform was not quite so frank, for, although not promising reduction, the democrats did not admit the impossibility of reduction. They hoped to gain a few votes by leaving the inference that they might reduce the tax burden.

As the nature of the changes in taxation, the two parties were in accord. The republicans promised "tax laws which do not for tax laws, which do, excessively mulch the consumer or needlessly repress enterprise and thrift." This was aimed at the excess profits tax which has discouraged enterprise and is charged with increasing prices to the extent of 23 per cent. The democratic platform pledged a revision of the tax laws "to fit peace conditions so that the wealth of the nation may not be withdrawn from productive enterprise and diverted to wasteful or nonproductive expenditure." This was apparently a pledge to repeal the excess profits tax for that is the tax which has been charged with withdrawing money from productive enterprise.

As indicated by President Harding in his address to Congress, it is the desire of republicans to reduce the tax burden if possible, and their efforts will be bent in that direction, but it should be distinctly understood that there was no compaign or pre-election promise that such a result would be attained.

Any attempt of the democrats at that stage of developments to create the impression that republicans are guilty of breaking promises if they fail to reduce tax burdens, is dishonest. The republicans openly declared in their platform that they had no hope of reducing the amount of the burden in the near future. They did promise to substitute a better form of tax—one that would not repress enterprise or needlessly mulch the consumer. This pledge they keep.

IMMIGRATION RESTRICTION

The House has passed and sent to the Senate the immigration bill, similar to the one vetoed by the former President at the last session. It restricts for a period of fourteen months the entry of ailens into the United States to three per cent of the number of the nationals of each country registered ni the census of 1910. An effort was made before passage to amend the bill so as to admit political refugees, and particularly to permit Lord Mayor O'Callaghan of Cork to remain here, but all such changes were defeated. Mr. O'Callaghan has been ordered to leave the United States before June 5th. There is little doubt that the Senate will give its approval to the immigration bill in the near future, and that it will receive the signature of President Harding and become law.

People who live in California and especially in this vicinity, are congratulating themselves that they do not have to reside in Tennessee or other blizzard-ridden states in the East or South. A report comes from Memphis, Tenn., that nearly 100 people were killed last Saturday by a cyclone that swept over six Southern states.

Many an old-time saloon keeper, who has passed to the great beyond, must be turning over in his grave. Some druggists are asking (and getting) $12 a quart for whisky. Up in Oregon and Washington (bone dry states) bootleggers are getting $20 a quart for the stuff.

"Bill' Bryan paid President Harding a visit at the White House one day this week. The Commoner says he didn't discuss "policies or politics" with the President, but merely assured the chief executive of his personal regards and good wishes." It is said by many high in political circles that Bryan voted for Harding.

An Eastern publication advocates the harnessing of a volcano. Some of the Eastern and Southern states prefer harnessing a tornado.

REAL ESTATE MOVING

The University Realty Company reports many sales in the new tract placed upon the market last Saturday. Stanford Weed End Acres is going well and among the buyers are several local people. Units upon a paved highway and running to the center of San Francisquito Creek seem to have an equal appeal both for San Franciscoans and local people. Many motorists realize that it is not necessary to drive across the mountains to get all of the beauty of woods and creek. The great accessibility of the tract is said to be one of its chief attractions.

Poor old Broom was a good old soul,
But we fear the discard's now his goal.

The broom bears the same relation to a vacuum cleaner that a tallow candle does to an incandescent or a horse car does to an electric car. The broom belongs in the days that have gone—the old days when from sun to sun a woman's work was never done. The vacuum cleaner surely has won the V. C.

CHINA TRADE

The measure recently introduced by Representative Leonidas C. Dyer of Missouri for the encouragement of American trade with China has received the official endorsement of Secretaries Hughes and Hoover to whom it was referred for report. Letters from each of those officials to Mr. Dyer emphasize the need of legislation that will put ou rtrade with China on an equal footing with England, France and Japan.

A HOT RACE

The Sixty-seventh Congress is one of action. If the pace set in the first two weeks of its existence is followed until the adjournment of the present session next fall, a record of accomplishment will have been made that will scarcely find an equal in our history. The House enacted the emergency tariff bill and the immigration bill, while its committees perfected the great army and navy appropriation bills, and made substantial progres in the framing of the general tariff revision bill. The Senate considered and finally disposed of the Colombian Treaty that has been before that body for years, considered and confirmed Presidential appointments to the highest offices in the government service, reorganized its committees on an efficiency basis, cuttting out all useless assignments, and laid the foundation through committee hearings for rapidly disposing of the program of legislation that awaits the action of Congress.

CAL COLLECTED AND CA'M

Vice President Coolidge is proving a marked success as presiding officer of the Senate. Through the experience gained while serving in a similar capacity in the Senate of Massachusetts,. Mr. Coolidge has fallen naturally into his duties at Washington. His uniform courtesy to both sides of the Chamber and his impartiality in the rulings of the Chair are subjects of favorable comment among both republicans and democrats.

MENLO PARK NEWS OF ALL SORTS

Following the decision of the Palo Alto Chamber of Commerce directors to locate an automobile tourist camp in the Ravenswood grove beyond the University avenue bridge over San Francisquito creek, plans for the detailed features of the camp have been made promising to make it one of the most attractive retreats of the kind to be found anywhere in the state.

The camp site occupies three acres and adjoins a greater acreage of similar character which will make the camp capable of expansion to meet any increasing demand for space that tourists may make. The wooded character of the site its proximity to the creek and the presence near by of the attractive Runnymede farms combine to make the proposed camp one of special attractiveness.

Under the terms of the lease under which the chamber of commerce has taken over the site from Charles Weeks owner of the property the latter is to spend an amount up to $500 in installing conveniences, to include sanitary plumbing, a septic tank, shower baths, standpipes for water, grates for fires, galvanized iron refuse bins and tables and benches.

In addition to these indispensable conveniences which are to be fixtures of the camping park proper, tourists making use of the site will also have access to the facilities planned by Weeks for a recreational park for Runnymede in the wooded site adjoining the camp. The site of the recreational park is being leveled for its purposes. When completed it will have an auditorium outdoor dancing platform, children's playground, swimming pool, a chicken dinner inn and a landscape garden between the creek and Woodland avenue.

As water mains touch two sides of the camp site the matter of making suitable connections is simplified.

The fact that the camp lies where it is easy of access to the Palo Alto Stanford car line is considered an advantage to the business houses of the city.

The chamber of commerce directors plan to charge a small fee for the use of the park. The size of the fee has not been determined. The money from this source, however, is to be used in maintaining or further equipping the place.

Regarding the institution of an automobile camp park as a logical municipal enterprise, the chamber of commerce directors plan to petition the city council to take over the park and to reimburse Weeks for his expenditures, not exceeding $500.

Rev. Richard O'Donnell, assistant pastor of St. Leo's parish, Piedmont, was visiting our esteemed assistant pastor, Rev. Father Hammond, during the week.

Mrs. W. A. Doyle was hostess to a number of friends at her home on Oak Grove avenue Thursday afternoon. The guests were from Burlingame, Palo Alto, Redwood City and Menlo Park. It was a most enjoyable afternoon.

The wealthy members of Trinity Episcopal church are going to establish elaborate playgrounds at Trinity Hall. This week the old cherry trees were uprooted. Boys of forty years ago will recall purloining the fruit from these trees, then owned by the late James Alcorn. Many of the grownups look with regret on the destruction of these trees which were links between the past and present.

Mrs. Larrecou has awarded a contract to Thomas Cochrane to put a plate glass front on the Larrecou building. Work is to be commenced next week.

A nine from St. Joseph's parochial school defeated a team from the Palo Alto school on the latter's diamond on Thursday afternoon by a score of 13 to 7.

Mrs. Valentine F. Davis, widow of the late I. M. Davis, passed away at University Heights last Sunday following a brief illness. She was a native of San Jose, aged 60 years. Before coming here many years ago Mr. and Mrs. Davis resided at La Honda where Mr. Davis was the village blacksmith. The funeral took place Tuesday afternoon from the parlors of Tinney & Layng at Redwood City. Interment was in Holy Cross cemetery, Menlo Park. Mrs. Davis' life was spent in the Santa Clara valley. Her parents attended the old Santa Clara mission. Mrs. Davis is survived by the following children: Daniel, William, Charles, George, Eva and Margaret Davis, Mrs. Martha Harrington, Mrs. Ida Andreen and Mrs. Emma Ravizza.

A rumor was current yesterday that a wealthy Los Angeles real estate firm had purchased the lands owned by the Mary Help's hospital on the highway running back to Santa Cruz avenue. It was said the concern intends to erect a two-story building on the corner of the highway and Oak Grove avenue and to subdivide the property to be bought by Los Angeles residents. If the report is true a boom awaits Menlo Park.

The Menlo Park Golf and Country Club has established a woman's golf day for the summer season and on Thursdays many of the women members gather at the club for luncheon and golf afterward. Last Thursday was the opening day and some of the players motored down from town for the event. Among players were Mrs. Charles McCormick, Mrs. DeLancy Lewis, Mrs. George Lent, Mrs. Lester Herrick, Mrs. Augustus Taylor, Mrs. Douglas McBryde, Mrs. Covington Pringle and Mrs. Selah Chamberlain.

Congratulations are being extended to Mr. and Mrs. Marshall Madison on the birth of a daughter Sunday. She will be named Elena after her mother who was Miss Elena Eyre and her great grandmother the late Mrs. Elena Atherton Selby.

Dr. David Starr Jordan delivered his famous lecture "The Ascent of the Matterhorn" in Trinity Hall before a large audience on Wednesday evening. There was a moving picture show before the commencement of the lecture. Dr. Jordan was listened to intently as he gave a description of the famous mountain in Switzerland. He ascended it many years ago while he was president of Stanford University.

James G. Mason, accompanied by his young niece, Miss Ida Owen of Saratoga, will depart for a six weeks' trip to Honolulu on Wednesday, May 6. They will go on the steamer Moui. Mrs. Sophie Hogg, a sister of Miss Owen, resides on the islands, she having married a Stanford man a few years ago, going shortly after to reside in the islands. Mr. Mason will enjoy the trip, for he has not had a vacation in many years. The visitors will see all the sights of that wonderful country, including the famous burning volcano. Mr. Mason expects to spend a month on the various islands. The visitors will have the advantage of being shown the various points of interest by Mr. and Mrs. Hogg, who took their automobile with them when they left Saratoga two years ago.

The Will D. Shea beautiful home at Atherton was sold this week to a San Francisco capitalist. The price received for the choice property was in the neighborhood of $30,000. The sale was made by Sam Crozier, the realty broker of Redwood City and San Francisco.

Mr. and Mrs. Al Midgley left last Sunday for Inyo county to be gone for some time. They will combine business with pleasure while there.

Ilah and Harold Vincent left for Stockton the first of the week to reside with relatives of their late father. Miss Dorothy will remain here until she finishes high school and then she will join her relatives. She will make her home with the Booa family while here.

Mr. and Mrs. Alexander Hamilton and their pretty children of San Francisco have opened their attractive home in the foothills back of Atherton for the summer months.

The Menlo Feed and Produce store in the Maloney block was opened by M. V. Sweet of Visitacion last week. Poultry, hog and dairy intedests will find this place the best on the peninsula for their supplies. Mr. Sweet's prices are lower than the lowest. See adertisement in another column.

Menlo Park dropped a hard fought game to Palo Alto Sunday afternoon on the community center diamond, Palo Alto, by a score of 6 to 4. The Fremont Post team was the Palo Alto aggregation that copped the bacon from the Menlo boys. The score was 4 to 4 in the seventh and it was anybody's game. Two misplays in the eighth by Menlo gave the Legion team the lead and decided the fortunes of the day. Thompson and Nef twirled for the victors and Bob Spiers did the receiving. The outstanding features o fthe game were the pitching of Blanchard and the work of Moriarity at first for Menlo. A home run by Captain Thomas and a triple play participated in by Kelly, Browning and Woodward for the Legion. Despite the cool breeze blowing there was a bumper crowd on hand to witness the game.

Mrs. S. T. Baker of the Menlo Park Country Club tied Mrs. Hubert Law, oft crowned champion, for third place in the qualifying round of the California women's golf championship play on the Beresford Country Club course this week. Mrs. Law will not be able to proceed with the match play. Miss Doreen Kavanagh of Los Angeles was heroine of the round.
